

Get your team focused and energised for our Delphi search and rescue mission. A challenging team bonding experience. A great scenario that incorporates an adventurous journey and relies on excellent team communications to achieve success.

Your Mission: Locate and rescue casualty from Delphi forest.

Due to bad weather, the rescue Helicopter cannot locate the casualty. Your teams must find the care packages dropped by the helicopter within the Delphi Wilderness. These care packages are essential in the safe transport and survival of your casualty. 3 teams are tasked with completing various parts of the rescue mission.

The casualty must be located then brought to a makeshift rescue base until the helicopter has clearance to fly again. There is one major obstacle, a crevasse crossing - communication is the key to success!

Duration: 1 Day (10am-5pm)
Team Numbers: Min. 15- Max. 40
Suitable For: All ages and fitness levels.

Itineraries are tailored to suit each individual teams' requirements, please call Danielle on 095 42113 or email teams@delphiresort.com
